PUBLIC SAFETY DISPATCHING Q & A

Q. Is this a job for just anyone?

A. No. Studies have proven that approximately 30% of the general population can effectively perform the duties of a public safety dispatcher.

Q. What makes that 30% so unique?

A. Public safety dispatchers must be able to perform calmly, accurately, and effectively under stressful conditions. They must possess the natural skill of "multi-tasking", and the ability to make split decisions based on real-time situations within critical timeframes. They are often required, due to the "emergency-driven" atmosphere, to work for long periods of time without breaks.

Q. What's the work schedule like?

A. Riverside County Fire Department's PSCO's, or Public Safety Communications Officers, work a 4/10 workweek. There are three shifts, 6:00 a.m. – 4:00 p.m., 12:00 p.m. – 10:00 p.m. and 8:00 p.m. – 6:00 a.m.

Q. Are RCOFD Public Safety dispatchers well paid?

A. Starting hourly pay for a PSCO I is \$16.80 and based upon skill and experience level can earn up to \$25.00 hourly. A PSCO II can earn up to \$28.63 hourly. For more information, visit our website at: www.rvcfire.org.
